

PRESS RELEASE

18-07-61

06 July 2018

Opening of ift Hellas

ift Rosenheim now represented in Greece by an independent company

On June 27, 2018, the opening of ift Hellas, representing ift Rosenheim in Greece, was celebrated in Thessaloniki. More than 70 guests, including representatives of the Greek government, industry and other guests of honour were present at the conclusion of the contract between Dimitrios Moustakidis (General Manager ift Hellas), Dr. Jochen Peichl (CEO ift Rosenheim) and Matthias Fröhleke (General Manager Business Line Testing ift Rosenheim). By founding the independent company, it is now possible to serve customers faster and react more flexibly to inquiries.

On June 27, 2018, the opening of ift Hellas, representing ift Rosenheim in Greece, was celebrated in Thessaloniki. More than 70 guests, including representatives of the Greek government, industry and other guests of honour were present at the conclusion of the contract between Dimitrios Moustakidis (General Manager ift Hellas), Dr. Jochen Peichl (CEO ift Rosenheim) and Matthias Fröhleke (General Manager Business Line Testing ift Rosenheim). By founding the independent company, it is now possible to serve customers faster and react more flexibly to inquiries.

Building on the existing services, Greek customers can now be served faster and more efficiently. An enormous advantage is that tests can take place in Greece. In the first step there will be a cooperation with two ift-authorized test laboratories, where air-wind-water tests can currently be carried out. These services are also provided for neighbouring countries. In addition, the communication and documentation from the offer to the ift certificate can be done in Greek.

During the "Window Days Hrvatska" in Croatia the official opening of ift Hrvatska took place on 13.03.2018. Managing Director Hrvoje Komac can now, just like ift Hellas in Greece, better serve Croatian companies, save transport costs and shorten delivery times.

The ift Rosenheim wishes both founders much success and looks forward to continuing the successful cooperation.

Info about ift Rosenheim (for the public press)

You need skills, technology and experience for good structures, and this is especially applicable to windows, facades and doors. Since 1996, ift Rosenheim has been supporting the industry as a neutral scientific institute with technical services and more than 200 employees. These include conducting tests and research, certification and quality management as well as standardisation, advanced education and technical information. In this manner, ift Rosenheim is promoting the development of quality products that are suitable for use, environment-friendly and efficient, and which make life more comfortable, more secure and safer, and healthier.
